Policy

2. Prohibited Applications

2.7.2

Requirements

The following requirements apply to applications that receive the location of a user's mobile device:
2.7.2 The privacy policy of your application must inform users about how location data from the Location Service API is used and disclosed and the controls that users have over the use and sharing of location data. This can be hosted within or directly linked from the application.

Expected Result

Comments: The application uses location services but does not include a privacy policy describing how the application uses the Location Service and what control users have over the usage and sharing of information obtained through that usage.

Result: **Fail**
